

LiveOffice Cloud Archiving for Microsoft Office 365

Why Microsoft Office 365?

Microsoft Office 365 combines the familiar Office desktop suite with cloud-based versions of Microsoft’s next-generation communications and collaboration services: Exchange Online, SharePoint Online and Lync Online. Microsoft Office 365 is simple to use and easy to administer – all backed by the robust security and guaranteed reliability you expect from Microsoft.

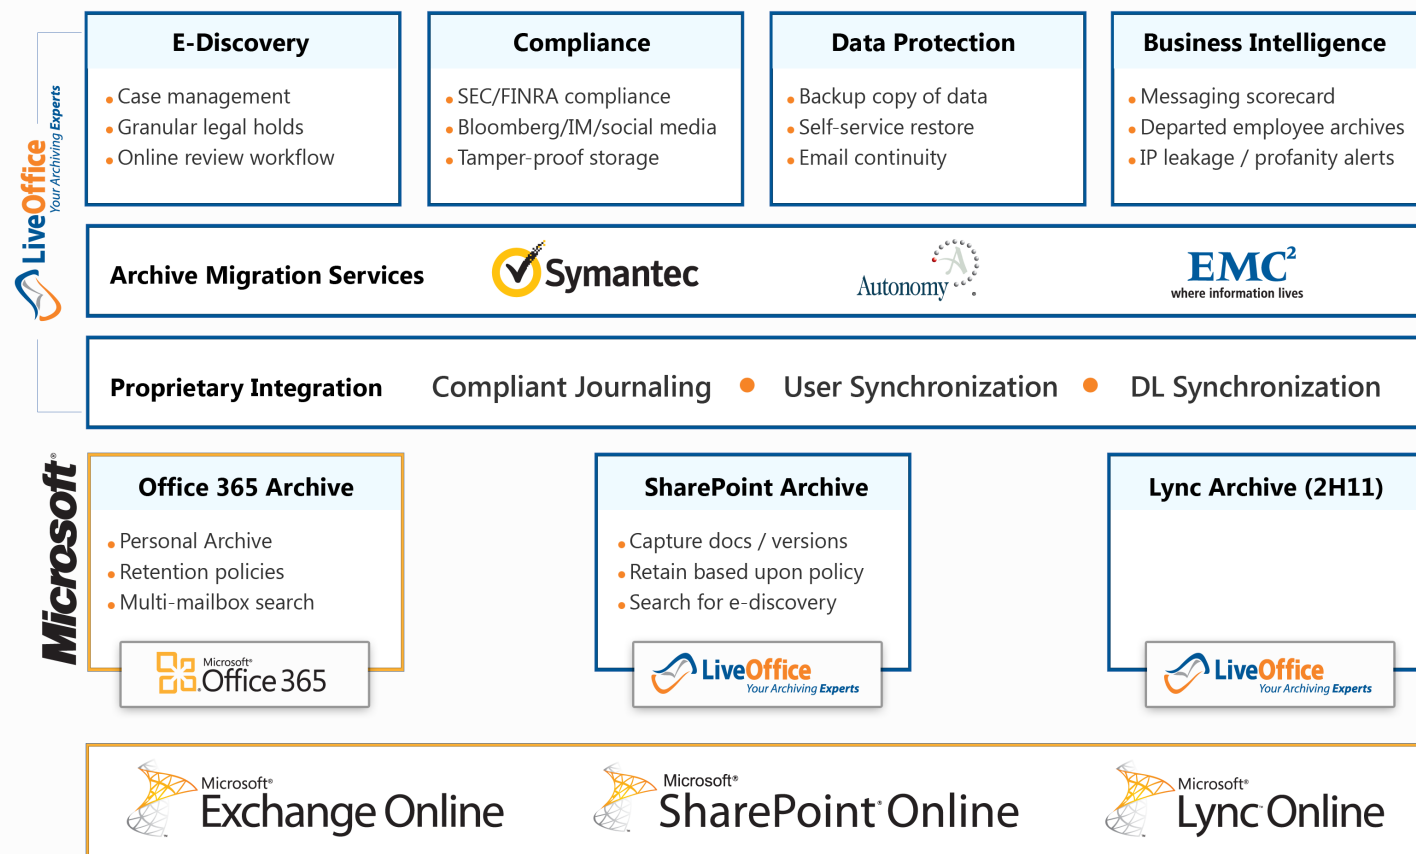

Archiving in Office 365

Microsoft Office 365 offers two types of archiving for Exchange Online: Personal Archive (included with all plans) and advanced archiving capabilities (only included with the E3 and E4 plans):

Office 365 Archiving				
Feature	E1 \$10 per user/month	E2 \$16 per user/month	E3 \$24 per user/month	E4 \$27 per user/month
Personal Archive	●	●	●	●
Advanced Archive			●	●

Why LiveOffice?

LiveOffice cloud archiving offers advanced compliance and e-discovery capabilities for Microsoft Office 365 and is the only archiving provider that securely captures, retains and synchronizes users in one integrated system.

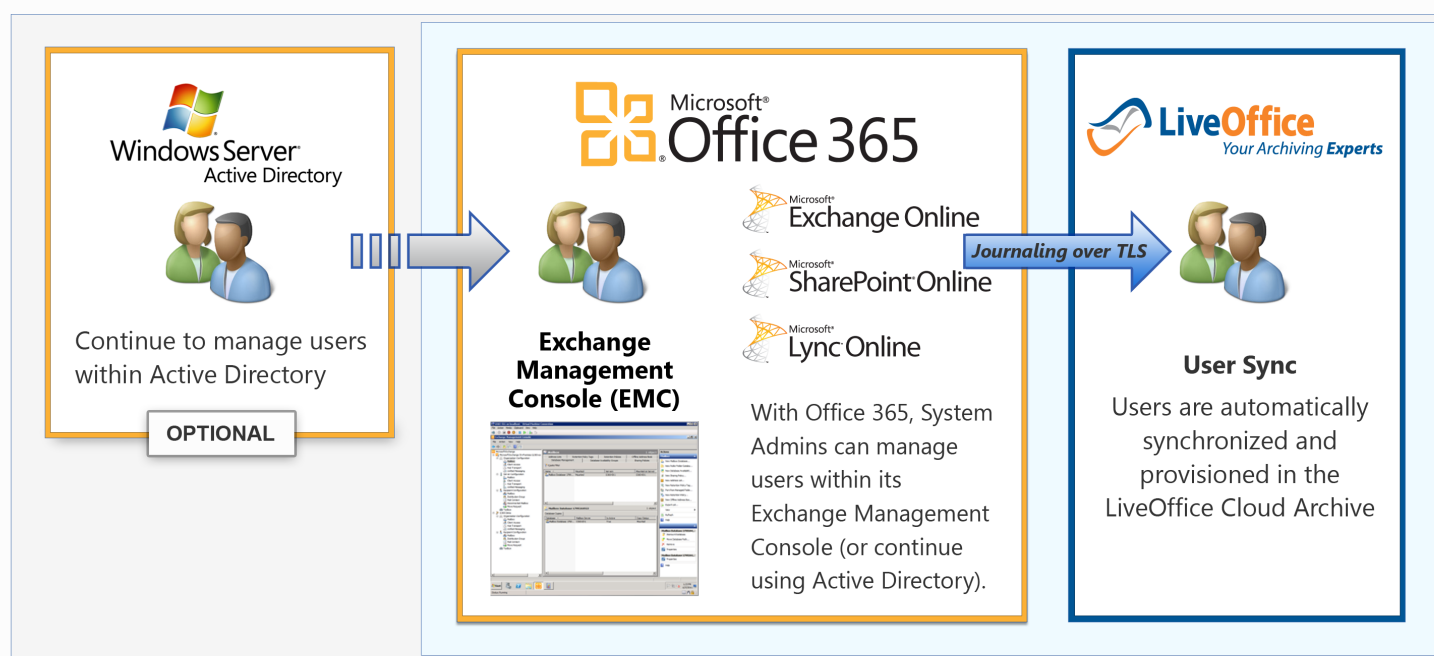

Unique Benefits

LiveOffice has a rich history archiving both messages from Exchange and Exchange Online, making it an ideal partner to help stuck deals move forward, especially those involving advanced discovery, compliance and data protection sales barriers:

- LiveOffice is Microsoft's recommended third-party archive
- LiveOffice is one of the top five worldwide resellers of Microsoft Business Productivity Online Suite (more than 250 deployments)
- LiveOffice is the only archiving vendor that:
 - Integrates archiving across Exchange Online, SharePoint Online and Lync Online (2H11)
 - Automatically synchronize users, email addresses and distribution lists with Microsoft Office 365
 - Provides native archive access from Windows Phone 7, along with other mobile devices

LiveOffice is the Only Third-Party Archive with Automated Directory Sync to Microsoft Office 365

With automated directory sync, Exchange administrators only need to manage and provision users and mailboxes in one place. LiveOffice leverages envelope journaling to securely capture all messages, attachments (Exchange Online) and SharePoint Online files with a centralized, searchable online repository.

Migration to Microsoft Office 365

Moving to the cloud with Microsoft Office 365 often means means clients take their data with them, and this can present a significant sales hurdle. LiveOffice helps your clients migrate their existing data—whether it is stored on tape, PSTs (NSFs for Notes environments) or trapped within existing on-premise archives (e.g., Symantec, Autonomy or EMC). LiveOffice enables your clients to move an unlimited amount of data per mailbox into its cloud-based archive. This is especially helpful for organizations that are upgrading from legacy Microsoft Exchange, IBM Lotus Notes or GroupWise platforms to Exchange 2010, Exchange Online or Microsoft Office 365.

SPECIAL WPC PARTNER OFFER: FREE MIGRATION SERVICES

Accelerate the move to Microsoft Office 365 with free migration and archiving services. If your customer purchases a LiveOffice archiving solution by October 31, 2011, LiveOffice will provide **FREE** legacy email ingestion (up to 1 GB per mailbox). Some limitations apply, so please inquire for more details.
